

ESSENTIALS

Did you know that for most businesses, IT is the second-largest budget item after employees?

CSI provides your first line of defense, protecting your IT investment by delivering the IT services you need most

Why SMB's are adopting Managed Services:

Approximately 7 in 10 end-user organizations today contract with a MSP for some or all of their technology needs, according to a recent survey report published by CompTIA.

The CompTIA study found 46% of the current users of MSPs have reduced their annual IT expenditures by 25% or more as a result of their shift to managed services, with 13% experiencing 50% or more IT savings.

These savings and other business benefits have driven 62% of the current users of MSPs to plan to increase the proportion of their IT operations managed by MSP over the next two years.

Essentials IT Features:

- **IT Health Reports:** Receive monthly reports on the health of your technology, including Network Health, Warranty, and Lifecycle Management reports
- **Anti-Virus protection** for your network, your devices and your data
- **Patch Management:** Windows and 3rd party patch management, plus patch reporting is part of your package
- **IT Responsive Support:** Our helpdesk and team of engineers are available to assist with all your support needs. Remote support is a click away!

Essentials IT Benefits:

- **Avoid IT emergencies:** Our Network Operations Center will help resolve issues before they impact your business
- **Improve Productivity:** Give your employees and customers an improved user experience on your network
- **Save Money:** Reports to help you plan to have the most cost effective and efficient IT solutions
- **Get on-site break/fix support** at our best hourly rates when your support issues require on-site techs

...users of MSPs (Managed Service Providers) have reduced their annual IT expenditures by 25% or more...
